Volume 5, 1990

Acetabulum. *See also* Hip arthroplasty
  grafting and cementless arthroplasty for dysplasia, 231
  radiographic demarcation of cement interface, S1
  threaded components, 201
Air contamination
  during total hip arthroplasty, 127
Alignment
  intramedullary and extramedullary in total knee arthroplasty, 1
Allografts
  implant composite reconstruction following periacetabular sarcoma resection, S25
  revision arthroplasty with, interlocking femoral components, S35
Aneurysm
  popliteal, after total knee arthroplasty, 301
Arthritis. *See also* Osteoarthritis; Rheumatoid arthritis
  patellofemoral, 49
Arthrodesis
  hip, 89
  persistent infection after knee arthroplasty, 277
  and treatment of supracondylar fracture, 267
Arthrograms
  in assessment of painful hip arthroplasty, 143
Aspirin
  prophylaxis, and thromboembolism in deep vein thrombosis, 181
Autologous transfusion
  and arthroplastic surgery, S89
  in total hip arthroplasty, 61
Autophor components
  analysis of removed components, 29
Autotransfusion
  requirements after knee arthroplasty, 281
Axial alignment
  and total condylar knee arthroplasty, 173

Bead size
  radigraphic resolution of, 117
Blood donation
  utilization and effectiveness of in arthroplastic surgery, S89
Blood transfusion
  autologous transfusion in total hip arthroplasty, 61
Bone remodeling
  computer predictions of around porous-coated implants, 191

Capitello-condylar total elbow arthroplasty, S83
Cefuroxime
  in total joint arthroplasty, 169
Cement
  acrylic, high-energy shock waves and removal, 19
  cefuroxime in and infection, 169
  early loosening of hip arthroplasty, 217
  fixation, and femoral prosthesis stability, S5
  prechilling and vacuum mixing for, 287
  removal from femoral shaft, 67
Cementless arthroplasty
  of hip
    with femoral head bone grafting, 231
    heterotopic ossification following, S43
    screw fixation of femoral component, S15
    and superior acetabular deficiency, 159
  of knee
    comparative study of tibial components, 245
    effect of metal-back without a stem on tibial prosthesis fixation, S67
    for osteoarthritis of knee, 151
    press-fit, 307
Central dislocation
  hip arthroplasty for and external iliac artery injury, S53
Ceramic components
  analysis of removed Autophor components, 29

Articles beginning on a page number preceded by the letter *S* appear in the supplemental issue.

Charnley hip arthroplasty
compared with McKee-Farrar arthroplasty, 9
evaluation forms, 187
survivorship analysis, 41
Clean air enclosure
air contamination in during total hip arthroplasty, 127
Computer simulations
of bond remodeling, 191
Condylar knee arthroplasty
fatal embolism following, 291

Data analysis
orthopaedic, 97, 105, 111
Debridement
infection rate and, 35
Double-cup arthroplasty, 349
Drainage
in total hip arthroplasty, S21
Dysplasia, hip
cementless arthroplasty with femoral head bone grafting for, 231
uncemented hip arthroplasty and superior acetabular deficiency, 159

Elbow arthroplasty
capitello-condylar for rheumatoid arthritis, S83
polyethylene bearing component failure and dislocation in triaxial elbow, 365
total elbow arthroplasty, 359
Electromyography
scoring for gluteal nerve damage after hip arthroplasty, 319
Empirical investigation, 97, 105
Exhaust gown
and air contamination, 127
Extramedullary alignment
in total knee arthroplasty, 1

Fat embolism syndrome
fatal, following total condylar knee arthroplasty, 291
Femur
bone cement removal from shaft, 67
component loosening in Charnley total hip arthroplasties, 41
double-cup arthroplasty, 349
fracture of femoral component in unicompartmental total knee arthroplasty, 315
head autograft technique, 159
head size and cement–bond interface, S1
interlocking components for revision arthroplasty with allografts, S35
neck retention and cement on femoral prosthesis, S5
Partridge Cerclene system for fracture of, 123
polyethylene-coated component, 83
press-fit stems and strains, 71
screw fixation of femoral component in hip arthroplasty, S15
stem fracture, 241
supracondylar fractures, 267
Fracture
femoral component in uncompartmental total knee arthroplasty, 315
femoral stem, 241
supracondylar, 267

Gait analysis
and total condylar knee arthroplasty, 173
Glenoid component
dissociation in Macnab/English shoulder arthroplasty, 15
revision of loose component facilitated by humeral component, S79
resurfacing, 329
Gluteus medius
integrity of after transgluteal approach, 57
Granulomatosis
in hip arthroplasty, S47

Harris hip evaluation form, 187
Hemiarthroplasty
Partridge Cerclene system for femoral fractures and, 123
versus total shoulder arthroplasty, glenoid resurfacing, 329
Heterotopic ossification
following uncemented total hip arthroplasty, S43
radiation therapy for prevention of, 369
Hip arthroplasty
aggressive granulomatous lesions in, S47
air contamination during, 127
allograft-implant composite reconstruction following periacetabular sarcoma resection, S25
analysis of removed Autophor ceramic-on-ceramic components, 29
aspirin prophylaxis and thromboembolism surveillance in, 181
bone cement removal from femoral shaft using windowing device, 67
cementless with femoral head bone grafting for hip dysplasia, 231
close-wound suction drainage vs. no drainage in, S21
early loosening of, 217
external iliac artery injury in for old central dislocation, S53
femoral component interlocking for revision arthroplasty with allografts, S35
gluteal nerve damage following, 319
gluteus medius integrity after transgluteal approach, 57
heterotopic ossification following cementless, S43
high-energy shock waves for bone cement removal, 19
hip fusion as option, 89
hip score in evaluation of, 187
intraoperative autologous transfusion in, 61
McKee-Farrar and Charnley arthroplasty, 9

Partridge Cerclene system for femoral fracture in osteoporotic bones, 123
polyethylene-coated femoral component, 83
posterior approach with complete posterior capsular and muscular repair, S57
press-fit femoral stems and strains in femur, 71
radiographic analysis of painful hip arthroplasty, 143
radiographic demarcation of the acetabular bone–cement interface, S1
retention of femoral neck and cement upon stability of femoral prosthesis, S5
screw fixation of the femoral component, S15
segmental fracture of femoral stem, 241
single-dose radiation therapy for heterotopic ossification prevention, 369
survivorship analysis in Charnley arthroplasties, 41
TC-99m-MDP scintigraphy and, S11
threaded acetabular components for, 201
tissue response and types of wear particles and failed arthroplasty, 337
uncemented and superior acetabular deficiency, 159

Hip fusion
as option to hip arthroplasty, 89

Hip score
for evaluation of total hip arthroplasty, 187

Humeral component
revision of loose glenoid component facilitated by, S79

Iliac artery
injury to during hip arthroplasty, S53

Infection
cefuroxime in total joint arthroplasty, 169
persistent, after arthrodesis for knee arthroplasty, 277
treatment in total knee arthroplasty, 35

Intramedullary alignment
fatal fat embolism and, 291
in total knee arthroplasty, 1

Irrigation
infection rate and, 35

Joint loading
and total condylar knee arthroplasty, 173

Knee arthroplasty
comparative study of uncemented tibial components, 245
fatal fat embolism following total condylar knee arthroplasty, 291
fracture of femoral component in unicompartmental total knee arthroplasty, 315
functional and radiographic analysis of total condylar knee arthroplasty, 173
infection after successful arthrodesis for infected arthroplasty, 277
intramedullary and extramedullary alignment, 1
low riding of patella during postoperative course, 303
metal-back without a stem effect upon tibial prosthesis fixation, S67
patellar resurfacing in total condylar, 259
patellofemoral arthroplasty, 49
PCA unicompartmental arthroplasty for osteoarthritis, 151
popliteal aneurysm after, 301
radiological analysis of uncemented PCA tibial implants, 131
revision surgery for stiff total knee arthroplasty, S73
transfusion requirements after using solcotrans autotransfusion system, 281
treatment of infected total knee arthroplasty, 35
treatment of supracondylar fracture, 267
uncemented, press-fit total knee arthroplasty, 307
unconstrained after patellectomy, 255

Limb salvage surgery
allograft-implant composite reconstruction following periacetabular sarcoma resection, S25

Lithotripter treatment
for bone cement removal, 19

Macnab/English arthroplasty
glenoid dissociation in, 15

Material properties
shock waves for bone cement removal, 19

McKee-Farrar arthroplasty
compared with Charnley arthroplasty, 9

Multivariable analysis
orthopaedic, 111

Nerve damage
gluteal nerve damage following total hip arthroplasty, 319

Nervous supply
transgluteal approach in total hip arthroplasty, 57

Occlusive clothing
and air contamination, 127

Operating gown
and air contamination, 127

Osteoarthritis
low riding of patella during postoperative course after knee arthroplasty for, 303
patellar resurfacing in total condylar knee arthroplasty, 259
PCA unicompartmental joint arthroplasty for, 151

Osteoporosis
Partridge Cerclene system for femoral fracture and, 123

Partridge Cerclene system
for femoral fractures, 123
Patellectomy
knee arthroplasty after, 255
Patella
low riding of during postoperative course after total knee arthroplasty, 303
resurfacing, 259
Patellofemoral arthroplasty, 49
PCA tibial implants
radiological analysis of, 131
PCA unicompartmental arthroplasty
for knee osteoarthritis, 151
Pelvic surgery
allograft-implant composite reconstruction following periacetabular sarcoma resection, S25
Periacetabular sarcoma resection
allograft-implant composite reconstruction following, S25
Photoelastic coating
and strain patterns on femur, 71
Polyethylene bearing failure
in triaxial elbow, 365
Polyethylene coating
on femoral component, 83
Porous-coated implants
computer predictions of bone remodeling around, 191
radiographic resolution of beads from, 117
Press-fit components
hip, and femoral strains, 71
knee, 307
tibial, a comparative study, 245
Prechilling
for bone cements, 287
Pulmonary embolism
in total hip arthroplasty, 181

Radiation therapy
for heterotopic ossification after total hip arthroplasty, 369
Radiographic analysis
beads from porous-coated joint prosthesis, 117
demarcation of the acetabular bone–cement interface, S1
femoral neck retention and cement fixation effect on femoral prosthesis, S5
intramedullary and extramedullary alignment in knee arthroplasty, 1
painful hip arthroplasty, 143
TC-99m-MDP scintigraphy and hip arthroplasty, S11
total condylar knee arthroplasty, 173
uncemented PCA tibial implants, 131
Radiolucencies
McKee-Farrar and Charnley arthroplasty, 9
Reimplantation
two-stage, and infection knee arthroplasty, 35
Research design
empirical considerations in, 97, 105, 111
Revision arthroplasty
hip
bone cement removal from femoral shaft, 67
early loosening of, 217
granulomatous lesions in, S47
interlocking femoral components for with allografts, S35
shock waves for bone cement removal, 19
TC-99m-MDP scintigraphy and, S11
knee
for stiffness, S73
shoulder
loose glenoid component facilitated by a modular humeral component, S79
Rheumatoid arthritis
Capitello-Condylar total elbow arthroplasty for, S83
low-riding of patella during postoperative course after knee arthroplasty for, 303
patellar resurfacing in total condylar knee arthroplasty, 259
Roentgen stereophotogrammetric analysis
and early loosening in hip arthroplasty, 217
Rotational loading
screw fixation of femoral component, S15

Screws
fixation, femoral component in cementless hip arthroplasty, S15
interlocking, for femoral allografts to femoral prosthesis, S35
Shoulder arthroplasty
glenoid component dissociation in Macnab/English arthroplasty, 15
loose glenoid component facilitated by a modular humeral component, S79
versus hemiarthroplasty, glenoid resurfacing, 309
Solcotrans autotransfusion system, 281
Statistical methods
in orthopaedic research design and data analysis, 97, 105
Stiff knee
revision surgery for, S73
Superior acetabular deficiency
uncemented total hip arthroplasty and, 159
Supracondylar fracture
treatment of above total knee arthroplasty, 267
Survivorship analysis
in Charnley total hip arthroplasties, 41
Surgical approaches
posterior approach to hip joint with complete posterior capsular and muscular repair, S57
Synovitis
total elbow arthroplasty and, 359

TC-99m-MDP scintigraphy
and total hip arthroplasty, S11

Tendon healing
gluteus medius integrity after transgluteal approach, 57
Threaded acetabular components
and total hip arthroplasty, 201
Thrombosis, deep vein
in total hip arthroplasty, 181
Tibia
fixation, comparative study of, 245
metal-back without a stem effect upon tibial prosthesis fixation, S67
radiological analysis of PCA implants, 131
Tissue response
to wear particles around failed hip arthroplasties, 337
Transfusion requirements
after total knee arthroplasty, 281
Transgluteal approach
gluteus medius integrity after in hip arthroplasty, 578
Triaxial elbow
polyethylene bearing component failure in, 365

Unicompartmental arthroplasty
fracture of femoral component in, 315
patellofemoral arthroplasty, 49

Vacuum mixing
for bone cements, 287
Vascular complications
popliteal aneurysm after total knee arthroplasty, 301

Wear particles
and failed hip arthroplasties, 337
Wear response
autophor ceramic-on-ceramic components, 29
Windowing
femoral, and bone cement removal, 67
